Excite Work Bench A

30 number adventures · Grade 2

Look, build and compare! Count the pieces. Circle a number or tick your choices. A grown-up can read with you.

Name: _____

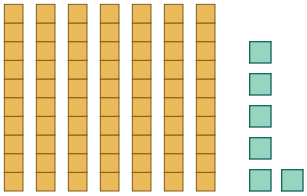

The matching online Work Bench A has drag-or-tap cards and a Check my answers button for every question.

1. Read the blocks

Excite Work Bench A

What number do the blocks show? Pick the number.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

( ) 67	( ) 77	( ) 76

[ ] I finished this question.

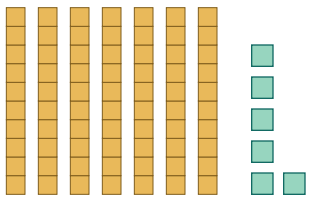

2. Find the matching picture

Excite Work Bench A

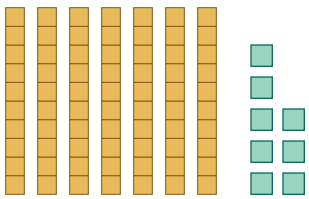

Which picture shows 78? Circle the matching picture.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

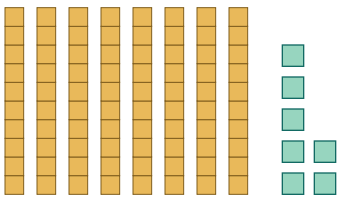

78

( ) Picture A

( ) Picture B

( ) Picture C

[ ] I finished this question.

3. Build a number

Excite Work Bench A

Build 74. Drag from the stick bank, or tap Add.

Ontario Math: B1.1 - Read and build the stated whole numbers using place-value bundles and loose ones.

Draw hundreds, tens and ones to build 74.

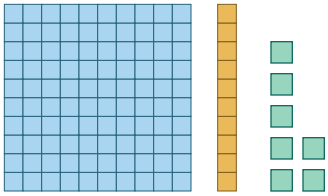

[ ] I finished this question.

4. Read the blocks

Excite Work Bench A

What number do the blocks show? Pick the number.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

( ) 101	( ) 107	( ) 117

[ ] I finished this question.

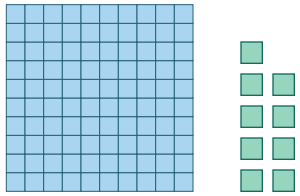

5. Find the bundle picture

Excite Work Bench A

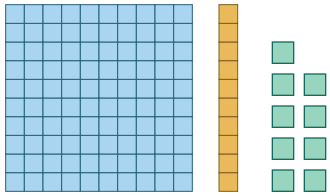

Which picture shows 119? Look at every place.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

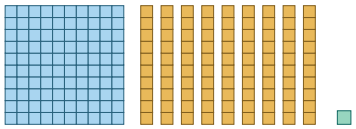

119

( ) Picture A

( ) Picture B

( ) Picture C

[ ] I finished this question.

6. Build a number

Excite Work Bench A

Build 114. Drag from the stick bank, or tap Add.

Ontario Math: B1.1 - Read and build the stated whole numbers using place-value bundles and loose ones.

Draw hundreds, tens and ones to build 114.

[ ] I finished this question.

7. Match the number words

Excite Work Bench A · Part 1 of 2

Read the model. Circle the matching words.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

Hundreds	Tens	Ones
		

( ) one hundred thirteen	( ) one hundred three	( ) one hundred twenty-three

[ ] I finished this question.

7. Match the number words

Excite Work Bench A · Part 2 of 2

Read the model. Circle the matching words.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

Hundreds

Tens

Ones

( ) one hundred thirteen	( ) one hundred three	( ) one hundred twenty-three

[ ] I finished this question.

8. A number and its name

Excite Work Bench A · Part 1 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

Pick the number.

Hundreds	Tens	Ones
		

( ) 102	( ) 112	( ) 120

[ ] I finished this question.

8. A number and its name

Excite Work Bench A · Part 2 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

Pick its words.

Hundreds	Tens	Ones
		

( ) one hundred two	( ) one hundred twelve	( ) one hundred twenty

[ ] I finished this question.

8. A number and its name

Excite Work Bench A · Part 3 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

Pick the number.

Hundreds

Tens

Ones

( ) 102	( ) 112	( ) 120

[ ] I finished this question.

8. A number and its name

Excite Work Bench A · Part 4 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

Pick its words.

Hundreds

Tens

Ones

( ) one hundred two	( ) one hundred twelve	( ) one hundred twenty

[ ] I finished this question.

9. Read the names

Excite Work Bench A · Part 1 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

106

( ) one hundred six	( ) one hundred seven	( ) one hundred five

[ ] I finished this question.

9. Read the names

Excite Work Bench A · Part 2 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

109

( ) one hundred nine	( ) one hundred ten	( ) one hundred eight

[ ] I finished this question.

9. Read the names

Excite Work Bench A · Part 3 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

116

( ) one hundred sixteen	( ) one hundred seventeen	( ) one hundred fifteen

[ ] I finished this question.

9. Read the names

Excite Work Bench A · Part 4 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

119

( ) one hundred nineteen	( ) one hundred twenty	( ) one hundred eighteen

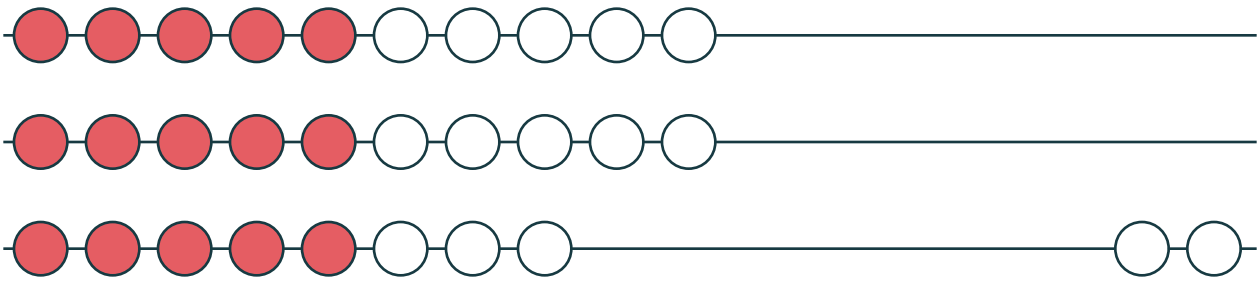

[ ] I finished this question.

10. Count the beads

Excite Work Bench A

Count the beads pushed to the LEFT. The gap separates them from the other beads.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

( ) thirty-three	( ) twenty-eight	( ) twenty-five

[ ] I finished this question.

11. Name the number

Excite Work Bench A

The library has 68 new books. Which words say that number?

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

68

( ) eighty-six	( ) sixty-eight	( ) sixty-seven

[ ] I finished this question.

12. Read the sign

Excite Work Bench A

Which words match the number on this sign?

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

( ) sixty-five	( ) fifty-six	( ) sixty

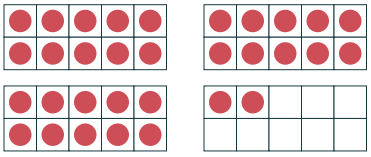

[ ] I finished this question.

13. Find all the matching models

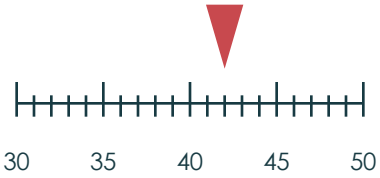

Excite Work Bench A

Tick EVERY model that shows 42. More than one picture matches.

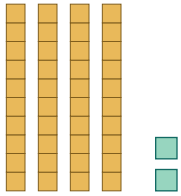

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

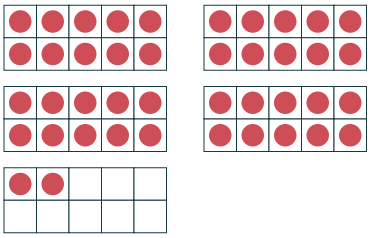

[ ] Ten-frames

[ ] Number line

[ ] Base-ten blocks

[ ] Ten-frames

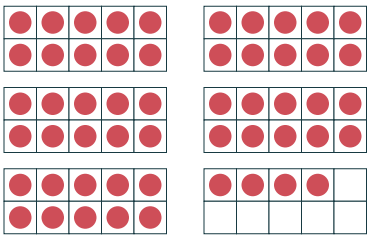

[ ] I finished this question.

14. Find all the matching models

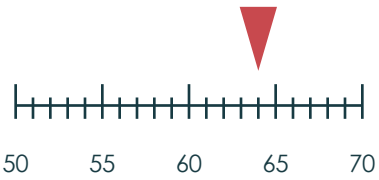

Excite Work Bench A

Tick EVERY model that shows 64. More than one picture matches.

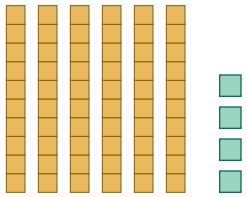

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

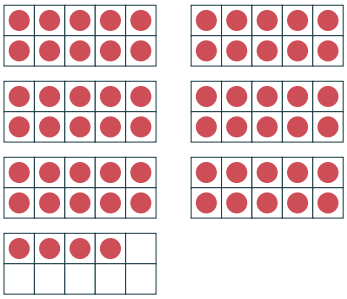

[ ] Ten-frames

[ ] Number line

[ ] Base-ten blocks

[ ] Ten-frames

[ ] I finished this question.

15. Fill the 100-chart

Excite Work Bench A · Part 1 of 5

The gold box needs a number. Circle the right number for the gold box.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · C1.3 - Use the chart rules of 1 more across a row and 10 more down a column to find the missing entries.

1	2	3	4	5	6	7	8	9	10

( ) 37	( ) 38	( ) 39

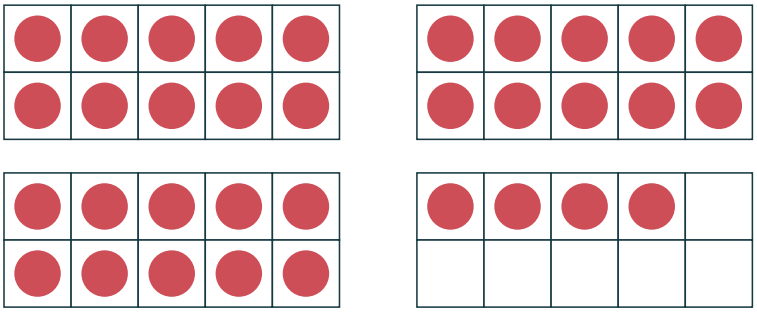

[ ] I finished this question.

16. One number, different names

Excite Work Bench A

Look at the model. Tick EVERY way to name this number.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

[ ] 4 tens + 3 ones	[ ] 30 + 4
[ ] thirty-four	[ ] 3 tens + 4 ones

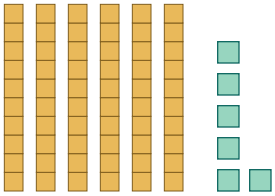

[ ] I finished this question.

17. One number, different names

Excite Work Bench A

Look at the model. Tick EVERY way to name this number.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

[ ] 6 tens + 6 ones	[ ] 60 + 6
[ ] sixty-six	[ ] 6 tens + 6 ones

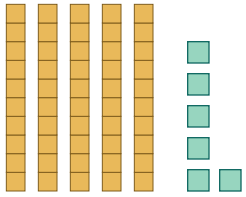

[ ] I finished this question.

18. Finish the number pattern

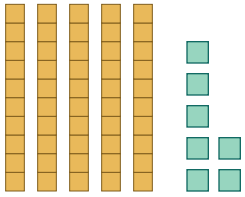

Excite Work Bench A

Count on by 1. Find the next three numbers.

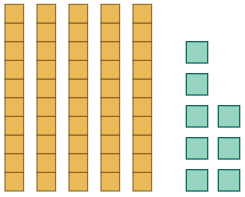

Ontario Math: C1.3 - Use the add-1 pattern rule to find the next three numbers, with the block pictures as a guide. · B1.1 - Match the whole number to its numeral, words or concrete model.

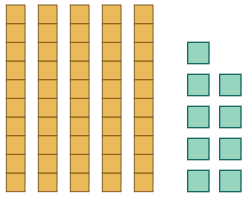

56

57

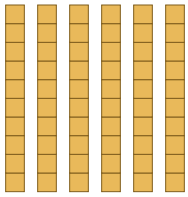

58

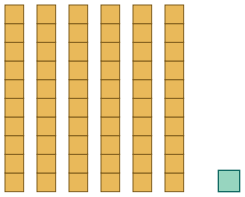

_____

58 / 59 / 60

_____

59 / 60 / 61

_____

60 / 61 / 62

[ ] I finished this question.

19. Compare the block pictures

Excite Work Bench A

Which sign makes the comparison true? The open side faces the larger number.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

( ) <	( ) =	( ) >

[ ] I finished this question.

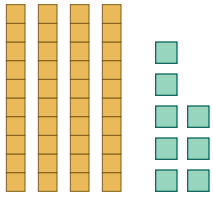

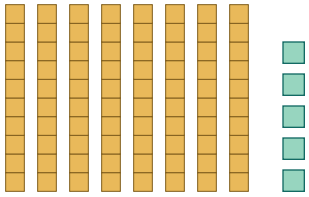

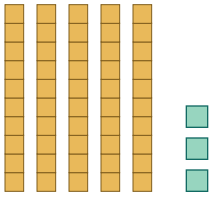

20. Find a bigger number

Excite Work Bench A

Which picture is GREATER than 53? Circle the matching picture.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

		
( ) Picture A	( ) Picture B	( ) Picture C

[ ] I finished this question.

21. Compare two numbers

Excite Work Bench A

Choose <, = or >. Read both numbers first.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

79 _____ **86**

( ) <	( ) =	( ) >

[ ] I finished this question.

22. Compare tens and ones

Excite Work Bench A

Look at the place-value pictures. Which sign belongs between them?

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

Tens	Ones
3	4

_____

Tens	Ones
4	2

( ) <	( ) =	( ) >

[ ] I finished this question.

23. Find the larger place-value card

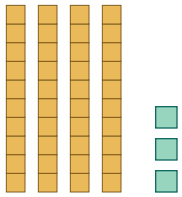

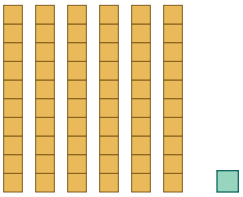

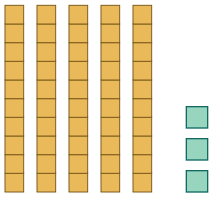

Excite Work Bench A

Find a number GREATER than 53.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

Tens	Ones
5	3

< _____

 ( ) Picture A	 ( ) Picture B	 ( ) Picture C

[ ] I finished this question.

24. Make it true

Excite Work Bench A

The left number must be GREATER than 64. Tap + or - to change the ones. Watch the blocks.

Ontario Math: B1.2 - Change the ones so the left number is greater than 64.

Draw extra ones on the LEFT to make it true.

[ ] I finished this question.

25. Compare the place-value cards

Excite Work Bench A

Look at the hundreds, tens and ones. Which sign fits?

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

Tens	Ones
7	1

_____

Tens	Ones
6	9

( ) <	( ) =	( ) >

[ ] I finished this question.

26. Find the smaller place-value card

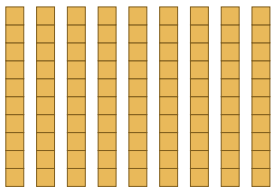

Excite Work Bench A

Which number is LESS than 81?

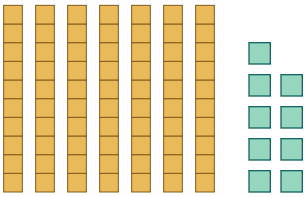

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

_____ <

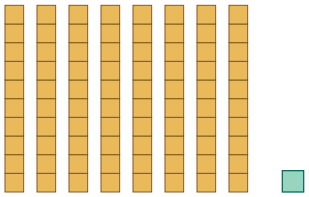

Tens	Ones
8	1

( ) Picture A

( ) Picture B

( ) Picture C

[ ] I finished this question.

27. Three number comparisons

Excite Work Bench A · Part 1 of 3

Put a sign between each pair. Check each pair.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

76 _____ **69**

( ) <	( ) =	( ) >

[ ] I finished this question.

27. Three number comparisons

Excite Work Bench A · Part 2 of 3

Put a sign between each pair. Check each pair.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

87 ____ **90**

( ) <	( ) =	( ) >

[ ] I finished this question.

27. Three number comparisons

Excite Work Bench A · Part 3 of 3

Put a sign between each pair. Check each pair.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

78 _____ **72**

( ) <	( ) =	( ) >

[ ] I finished this question.

28. Compare hundreds, tens and ones

Excite Work Bench A

Start with the hundreds. If they match, look at the tens. Then look at the ones.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

Hundreds	Tens	Ones
1	1	6

	Hundreds	Tens	Ones
	1	0	7

( ) <	( ) =	( ) >

[ ] I finished this question.

29. Pick the greater card

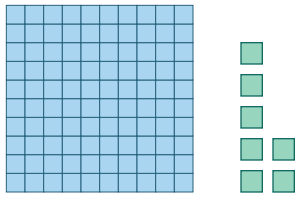

Excite Work Bench A

Which number is GREATER than 112?

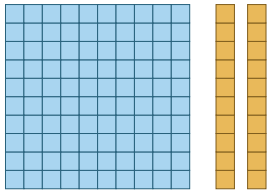

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

_____ >

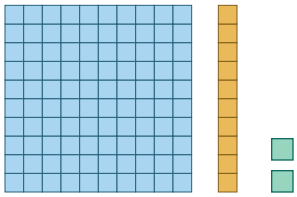

Hundreds	Tens	Ones
1	1	2

( ) Picture A

( ) Picture B

( ) Picture C

[ ] I finished this question.

30. Finish three comparisons

Excite Work Bench A · Part 1 of 3

Choose the sign that makes each pair true.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

106 ____ **112**

( ) <	( ) =	( ) >

[ ] I finished this question.

30. Finish three comparisons

Excite Work Bench A · Part 2 of 3

Choose the sign that makes each pair true.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

111 ____ **109**

( ) <	( ) =	( ) >

[ ] I finished this question.

30. Finish three comparisons

Excite Work Bench A · Part 3 of 3

Choose the sign that makes each pair true.

Ontario Math: B1.2 - Compare the given numbers or place-value models and choose the correct number or comparison sign.

103 _____ **120**

( ) <	( ) =	( ) >

[ ] I finished this question.

Excite Work Bench A · Answer guide

1. Read the blocks

76 = 0 hundreds, 7 tens, 6 ones.

B1.1: Match the whole number to its numeral, words or concrete model.

2. Find the matching picture

Picture B shows 78.

B1.1: Match the whole number to its numeral, words or concrete model.

3. Build a number

Build 74 with 0 hundreds, 7 tens and 4 ones.

B1.1: Read and build the stated whole numbers using place-value bundles and loose ones.

4. Read the blocks

117 = 1 hundreds, 1 tens, 7 ones.

B1.1: Match the whole number to its numeral, words or concrete model.

5. Find the bundle picture

Picture B shows 119.

B1.1: Match the whole number to its numeral, words or concrete model.

6. Build a number

Build 114 with 1 hundreds, 1 tens and 4 ones.

B1.1: Read and build the stated whole numbers using place-value bundles and loose ones.

7. Match the number words

one hundred three; one hundred thirteen

B1.1: Match the whole number to its numeral, words or concrete model.

8. A number and its name

102; one hundred two; 112; one hundred twelve

B1.1: Match the whole number to its numeral, words or concrete model.

9. Read the names

one hundred six; one hundred nine; one hundred sixteen; one hundred nineteen

B1.1: Match the whole number to its numeral, words or concrete model.

10. Count the beads

twenty-eight

B1.1: Match the whole number to its numeral, words or concrete model.

11. Name the number

sixty-eight

B1.1: Match the whole number to its numeral, words or concrete model.

12. Read the sign

sixty-five

B1.1: Match the whole number to its numeral, words or concrete model.

13. Find all the matching models

Number line, base-ten blocks and the final ten-frame model show 42.

B1.1: Match the whole number to its numeral, words or concrete model.

14. Find all the matching models

Number line, base-ten blocks and the final ten-frame model show 64.

B1.1: Match the whole number to its numeral, words or concrete model.

15. Fill the 100-chart

18; 27; 28; 29; 38

B1.1: Match the whole number to its numeral, words or concrete model. · C1.3: Use the chart rules of 1 more across a row and 10 more down a column to find the missing entries.

16. One number, different names

All except the first choice represent 34.

B1.1: Match the whole number to its numeral, words or concrete model.

17. One number, different names

All except the first choice represent 66.

B1.1: Match the whole number to its numeral, words or concrete model.

18. Finish the number pattern

59, 60, 61

C1.3: Use the add-1 pattern rule to find the next three numbers, with the block pictures as a guide. · B1.1: Match the whole number to its numeral, words or concrete model.

19. Compare the block pictures

>

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

20. Find a bigger number

85 > 53.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

21. Compare two numbers

<

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

22. Compare tens and ones

<

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

23. Find the larger place-value card

53 < 61.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

24. Make it true

Any whole number from 65 to 69 makes the comparison true.

B1.2: Change the ones so the left number is greater than 64.

25. Compare the place-value cards

>

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

26. Find the smaller place-value card

79 < 81.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

27. Three number comparisons

>; <; >

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

28. Compare hundreds, tens and ones

>

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

29. Pick the greater card

120 > 112.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

30. Finish three comparisons

<; >; <

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

Inspire Work Bench A

What number do the blocks show? Pick the number.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

( ) 367	( ) 377	( ) 376

[ ] I finished this question.

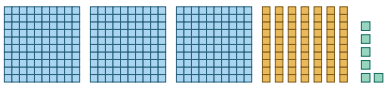

2. Find the matching picture

Inspire Work Bench A

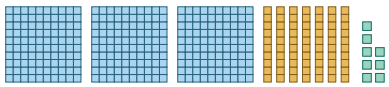

Which picture shows 378? Circle the matching picture.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

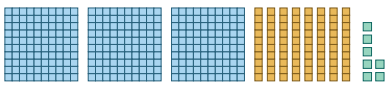

378

( ) Picture A

( ) Picture B

( ) Picture C

[ ] I finished this question.

3. Build a number

Inspire Work Bench A

Build 374. Drag from the stick bank, or tap Add.

Ontario Math: B1.1 - Read and build the stated whole numbers using place-value bundles and loose ones. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

Draw hundreds, tens and ones to build 374.

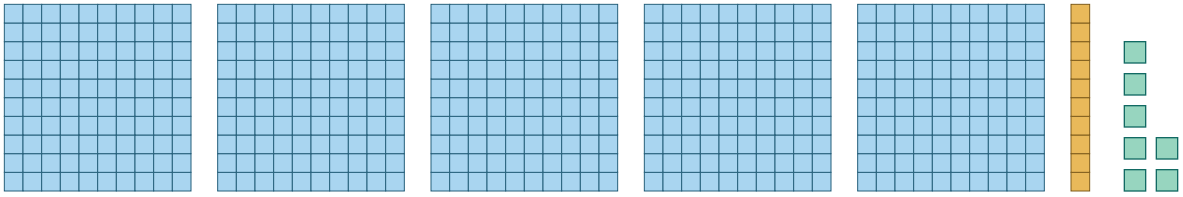

[ ] I finished this question.

4. Read the blocks

Inspire Work Bench A

What number do the blocks show? Pick the number.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

( ) 501	( ) 507	( ) 517

[ ] I finished this question.

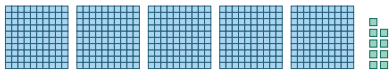

5. Find the bundle picture

Inspire Work Bench A

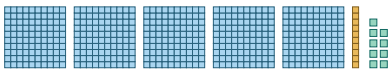

Which picture shows 519? Look at every place.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

519

( ) Picture A

( ) Picture B

( ) Picture C

[ ] I finished this question.

6. Build a number

Inspire Work Bench A

Build 514. Drag from the stick bank, or tap Add.

Ontario Math: B1.1 - Read and build the stated whole numbers using place-value bundles and loose ones. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

Draw hundreds, tens and ones to build 514.

[ ] I finished this question.

7. Match the number words

Inspire Work Bench A · Part 1 of 2

Read the model. Circle the matching words.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

( ) five hundred thirteen	( ) five hundred three	( ) five hundred twenty-three

[ ] I finished this question.

7. Match the number words

Inspire Work Bench A · Part 2 of 2

Read the model. Circle the matching words.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

( ) five hundred thirteen	( ) five hundred three	( ) five hundred twenty-three

[ ] I finished this question.

8. A number and its name

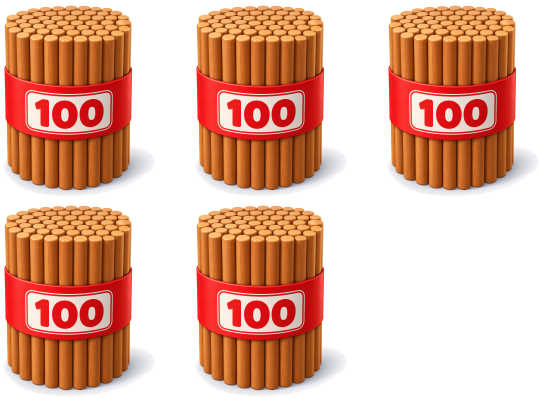

Inspire Work Bench A · Part 1 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

Pick the number.

Hundreds

Tens

Ones

( ) 502	( ) 512	( ) 520

[ ] I finished this question.

8. A number and its name

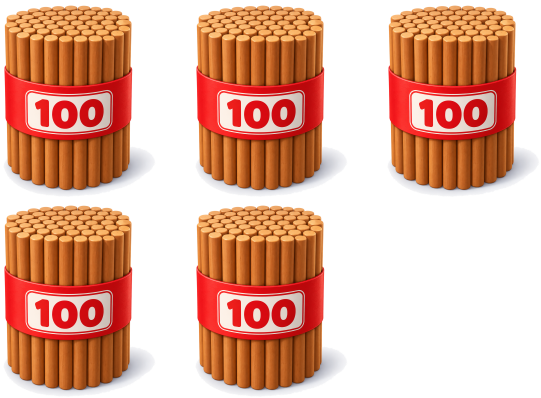

Inspire Work Bench A · Part 2 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

Pick its words.

Hundreds

Tens

Ones

( ) five hundred two	( ) five hundred twelve	( ) five hundred twenty

[ ] I finished this question.

8. A number and its name

Inspire Work Bench A · Part 3 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

Pick the number.

( ) 502	( ) 512	( ) 520

[ ] I finished this question.

8. A number and its name

Inspire Work Bench A · Part 4 of 4

Look at the sticks. Match the number, then its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

Pick its words.

( ) five hundred two	( ) five hundred twelve	( ) five hundred twenty

[ ] I finished this question.

9. Read the names

Inspire Work Bench A · Part 1 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

506

( ) five hundred six	( ) five hundred seven	( ) five hundred five

[ ] I finished this question.

9. Read the names

Inspire Work Bench A · Part 2 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

509

( ) five hundred nine	( ) five hundred ten	( ) five hundred eight

[ ] I finished this question.

9. Read the names

Inspire Work Bench A · Part 3 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

516

( ) five hundred sixteen	( ) five hundred seventeen	( ) five hundred fifteen

[ ] I finished this question.

9. Read the names

Inspire Work Bench A · Part 4 of 4

What is this number called? Circle its name.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

519

( ) five hundred nineteen	( ) five hundred twenty	( ) five hundred eighteen

[ ] I finished this question.

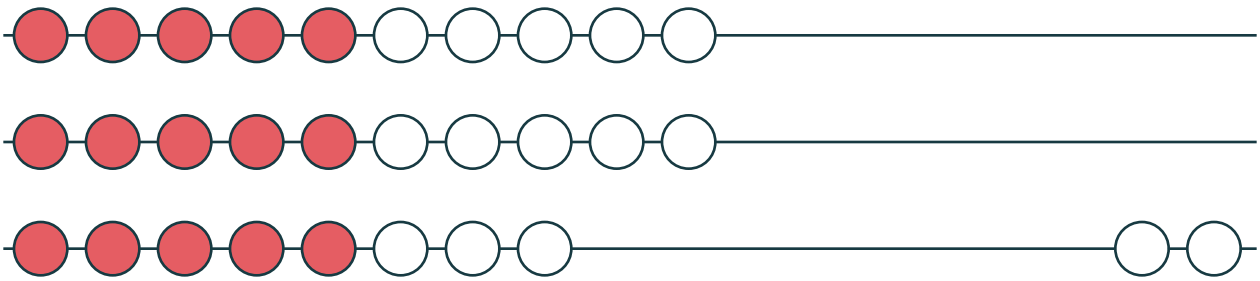

10. Count the beads

Inspire Work Bench A

Count the beads pushed to the LEFT. The gap separates them from the other beads.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

1 hundred

( ) one hundred thirty-three	( ) one hundred twenty-eight	( ) one hundred twenty-five

[ ] I finished this question.

11. Name the number

Inspire Work Bench A

The library has 368 new books. Which words say that number?

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

368

( ) three hundred eighty-six	( ) three hundred sixty-eight	( ) three hundred sixty-seven

[ ] I finished this question.

12. Read the sign

Inspire Work Bench A

Which words match the number on this sign?

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model.

( ) three hundred sixty-five	( ) three hundred fifty-six	( ) three hundred sixty

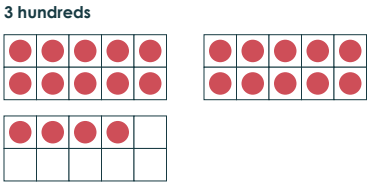

[ ] I finished this question.

13. Find all the matching models

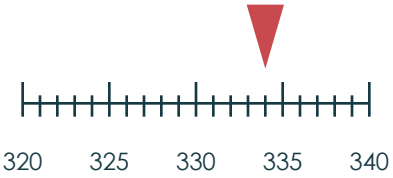

Inspire Work Bench A

Tick EVERY model that shows 334. More than one picture matches.

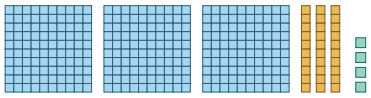

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

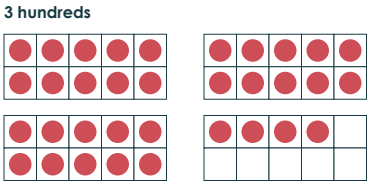

[ ] Ten-frames

[ ] Number line

[ ] Base-ten blocks

[ ] Ten-frames

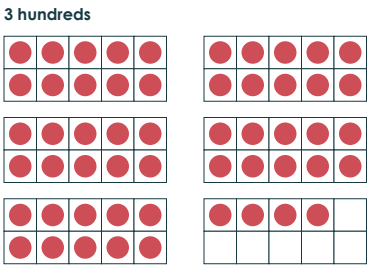

[ ] I finished this question.

14. Find all the matching models

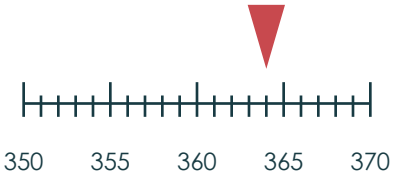

Inspire Work Bench A

Tick EVERY model that shows 364. More than one picture matches.

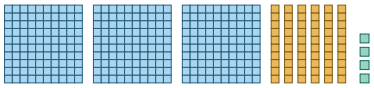

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · B1.5 - Use hundreds, tens and ones to read, build or compare the place-value model.

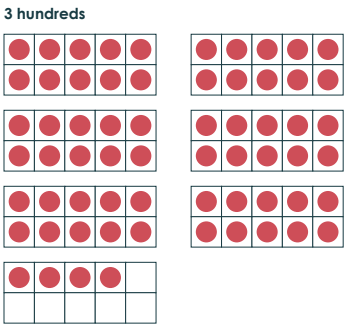

[ ] Ten-frames

[ ] Number line

[ ] Base-ten blocks

[ ] Ten-frames

[ ] I finished this question.

15. Fill the 100-chart

Inspire Work Bench A · Part 1 of 5

The gold box needs a number. Circle the right number for the gold box.

Ontario Math: B1.1 - Match the whole number to its numeral, words or concrete model. · C1.3 - Use the chart rules of 1 more across a row and 10 more down a column to find the missing entries.

101	102	103	104	105	106	107	108	109	110

Inspire Work Bench A · Answer guide

1. Read the blocks

376 = 3 hundreds, 7 tens, 6 ones.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

2. Find the matching picture

Picture B shows 378.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

3. Build a number

Build 374 with 3 hundreds, 7 tens and 4 ones.

B1.1: Read and build the stated whole numbers using place-value bundles and loose ones. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

4. Read the blocks

517 = 5 hundreds, 1 tens, 7 ones.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

5. Find the bundle picture

Picture B shows 519.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

6. Build a number

Build 514 with 5 hundreds, 1 tens and 4 ones.

B1.1: Read and build the stated whole numbers using place-value bundles and loose ones. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

7. Match the number words

five hundred three; five hundred thirteen

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

8. A number and its name

502; five hundred two; 512; five hundred twelve

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

9. Read the names

five hundred six; five hundred nine; five hundred sixteen; five hundred nineteen

B1.1: Match the whole number to its numeral, words or concrete model.

10. Count the beads

one hundred twenty-eight

B1.1: Match the whole number to its numeral, words or concrete model.

11. Name the number

three hundred sixty-eight

B1.1: Match the whole number to its numeral, words or concrete model.

12. Read the sign

three hundred sixty-five

B1.1: Match the whole number to its numeral, words or concrete model.

13. Find all the matching models

Number line, base-ten blocks and the final ten-frame model show 334.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

14. Find all the matching models

Number line, base-ten blocks and the final ten-frame model show 364.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

15. Fill the 100-chart

118; 127; 128; 129; 138

B1.1: Match the whole number to its numeral, words or concrete model. · C1.3: Use the chart rules of 1 more across a row and 10 more down a column to find the missing entries.

16. One number, different names

All except the first choice represent 334.

B1.1: Match the whole number to its numeral, words or concrete model.

17. One number, different names

All except the first choice represent 366.

B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

18. Finish the number pattern

359, 360, 361

C1.3: Use the add-1 pattern rule to find the next three numbers, with the block pictures as a guide. · B1.1: Match the whole number to its numeral, words or concrete model. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

19. Compare the block pictures

>

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

20. Find a bigger number

385 > 353.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

21. Compare two numbers

<

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

22. Compare tens and ones

<

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

23. Find the larger place-value card

353 < 361.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

24. Make it true

Any whole number from 365 to 369 makes the comparison true.

B1.2: Change the ones so the left number is greater than 364.

25. Compare the place-value cards

>

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

26. Find the smaller place-value card

379 < 381.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

27. Three number comparisons

>; <; >

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.

28. Compare hundreds, tens and ones

>

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

29. Pick the greater card

520 > 512.

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign. · B1.5: Use hundreds, tens and ones to read, build or compare the place-value model.

30. Finish three comparisons

<; >; <

B1.2: Compare the given numbers or place-value models and choose the correct number or comparison sign.
